

Frustration

The Whip

Frustration is coming in Frustration is over me

The spirals are guiding me down

but a new deck Has issued the sound

Looking... that I'm fading Suspended by engines that lie

Taking away expectation Giving the best that I can

Let it go Everything is said and done Let it go Everything is said and done

As I feel my soul around me Everytime I close my eyes

Frustration is coming in Frustration is driving me

Desire, it carries me on My exile has come and has gone

... clenching my fist tight I'm taking a pass that still count

Washing the walls we have painted I'm trying myself...

Let it go Everything is said and done Let it go Everything is said and done Let it go Everything is said and done Let it go Everything is said and done

As I feel my soul around me Everytime I close my eyes

It's cold outside and it's later than you think (4x)

It's cold outside (8x)

Let it go
