

Children of Tomorrow

The Whispers

Travelin' faster than light
The future you hold in your hands
You got promises to keep and far to go
Your heart knows
What your mind can't understand

Livin' on the moon
Universe at your feet
Oh, Lord, breakin' your chains
(Break 'em, break 'em)
Bind your wounds
Learn what it means to be free

Oh, and children of tomorrow
If you wanna teach to world how to live
Well then, children of tomorrow
You better teach the world how to give

Bubblegum factories
Tryin' to make the big balloon
You'll never achieve satisfactory
Coming up with the biggest boon

Lookin' over your shoulder
What do you see
Do you see the face of fear
Takin' accounts
Of your wrongs and rights
Does anybody really know we're here

Children of tomorrow
If you wanna teach to world how to live
Children of tomorrow
You better teach the world how to give

Bubblegum factories
Tryin' to make the big balloon
You'll never achieve satisfactory
Coming up with the biggest boon

Children of tomorrow
If you wanna teach to world how to live
Well then, children of tomorrow
You better teach the world how to give

Children of tomorrow
If you wanna teach to world how to live
Children of tomorrow
You better teach the world how to give...
