

Give It To Me

The Whispers

There's a place in time when you have to face
The fact that life is much too short to waste
You review your style of playing the field, oh yes, you will
And then you ask yourself, who do you belong to, who do come home to, girl

All the single bars and expensive treats
Doesn't warm your body between the sheets
Though other men have touched your satin skin
They're strangers to your heart, they are just impostors
I'm your true love doctor, girl

So give me that love girl, give it to me
I'll take all you got
Give me that love girl, give it to me
Because to satisfy me takes a lot
A whole lot of lovin' give it to me
Serve it cold, I'll make it hot
Love, give me that love girl
I know all the right spots just tell me when to stop girl

Ooh baby, what will it take for you to finally see (sweet, sweet lady)
That what you seek in others you have in me
You give yourself to others and when they're pleased (sweet, sweet lady)
They just get up and leave, it's wham, bam, thank you ma'am
They don't give a damn, oh girl

Though I may not be Michael J or the Prince (sweet, sweet lady)
I can make your life one hell of an event
I'm as stable as a giant oak tree (sweet, sweet lady)
Feel free to lean on me
We'll weather any storm, you're the reason I was born, oh girl

Give me that love girl, give it to me
I'll take all you've got
Give me that love girl, give it to me
Because to satisfy me takes a lot
And you're a lot of love girl give it to me
Serve it cold I'll make it hot
Love, give me that love girl
I know all the right spots just tell me when to stop
We have the right equipment to make a life commitment, oh girl

Ooh baby, sweet, sweet lady, you haven't been loved until you've been loved
by me
Lady, here I stand knowing that I can satisfy your needs more than any other
man

Oh girl, give me that love girl, give it to me
This moment begins the rest of our lives
Hey, you'll never know fear or hurt
Or ever have a reason to work
I'll be your bank and you will have the only key
Give me that love girl, give it to me
Day or night you can call on me
Ooh, each night you'll break into a sweat as I kiss you where your pleasures
are kept
How happy we'll be sharing kinky fantasies
