

Keep Your Love Around

The Whispers

I'm in the mood for romance
So I just have to take this chance
To celebrate the things we've grown
To love about each other
Here's looking at you
'Cause it still feels brand new
This love we found
There's not a thing I wouldn't do
To keep your love around

I wanna keep your love around
Keep your love around

All of my life I've waited
For someone just like you
And I don't plan to let you get away
My valentine, I'm so glad you're mine
And make no mistake
I'll do all that it takes
To keep your love around

I wanna keep your love around, baby
Keep your love

I'll chase that dream of love
But without gaining ground
Girl, with you by my side
My dreams have come true
Right here in the new world

And there could never be
A greater love for me
And, girl, I'll give my best
To keep our love alive

All that I ever needed
Comes all wrapped up in you
You gave me real love
Something, girl, I get from only you

Hey, I wanna keep your love around
I wanna keep your love around
Keep your love around
Oh, keep your love around
Keep your love around
Keep your love around...
