

# Set This Happiness Inside Me Free

The Whispers

Set this happiness inside me free  
Set this happiness inside me free

Loneliness is all over me  
But the happiness inside me you may never see  
See my smiling face, oh, just let it be  
'Cause the sadness inside me, you may never see

I've known girls who were afraid to love  
Can't you see I've been hurt too  
This time we'll try and make it work, my love  
Oh, tell me, darling, oh, what about you

Let your vanity be a prize for me  
I wanna shout it all over  
(Let me shout it all over)  
I wanna shout it all over  
Set this happiness inside me free  
You're more than a star, you're my galaxy

You're my lonely one for love and peace  
I find that you give it all to me  
I'll give it all so that you might see  
Oh, just to win your love will be my victory

Set this happiness inside me free  
To win your love will be my victory  
Set this happiness inside me free  
To win your love will be my victory...
