

Welcome Into My Dreams

The Whispers

In every way, you're part of me
All I am, all I'll ever be
If I'm weak when I should be strong
You're my strength to carry on
What's so wrong with wishing
That's the way it could be?
I wish you were real instead of make-believe

So welcome into my dream
This is my fantasy
How I wish you were here with me
Welcome into my dream, into my dream

Dreams remind me of all the things I miss
Could it be I'll remain in a fantasy like this?
Maybe dreams tell of good things to come
Girl won't you come today?
Don't let me dream my life away

What's so wrong with wishing
That's the way it could be?
I wish you were real instead of make-believe

So welcome into my dream
This is my fantasy
Girl I wish you were here with me
Welcome into my dream, into my dream
OhhhAhhh

Welcome, welcome, Baby (into my dream)
This is my fantasy
Won't you please come with me?
I'm in need of your love (into my dream)
Please let it be
So welcome Baby (into my dream)
Into my dream
This is my fantasy
Welcome into my dream
I'm yours forever (into my dream)
Just come to me
Welcome into my dream
