

## Second Best

The Whitlams

Movie stars and fancy cars delight you  
Gala balls and opening nights excite you  
I don't have my name in lights, I'm just a simple boy  
Don't you hesitate to call me  
When only second best will do

Cover girls wearing pearls inspire you  
French champagne and designer clothes incite you  
You're not in the magazines, you're just a simple girl  
Don't you hesitate to call me  
When only second best will do

Why do we want to live in a fantasy?  
There's a better place for you and me right here in  
reality  
'Cause this love is what dreams are made of  
I hope you never have to settle for even less

I'll work in a factory to support you  
Give you 3 screaming kids to annoy you  
Expect the worst and we won't be disappointed  
So don't you hesitate to call me  
When only second best will do
