

Ride The Wave

The Wildhearts

Life flies by in an untold balance
Where you take what you get
And you get what you really deserve
(It's celebration time, it's celebration time)
And I feel blessed, I guess, kinda lucky
In as much as I demand a lot in return
(It's celebration time, it's celebration time, it's celebration time)

So c'mon, why don't we get in the car (c'mon) and drive
There's a world out there
And time has seen the whole damn thing released

Won't you ride (the wave of fun)
Won't you get up and ride
(And you'll be inside when you're done)
And you will find there's no better time
Ride the wave of fun, fun
Won't you ride (the wave of fun)
Won't you get up and ride
(You'll miss all of the good times when they're gone)
The time is now, the past has gone
Ride the wave of fun, fun

Boredom spits like a child with a temper
It can take your day and decide the attention it needs
(It's celebration time, it's celebration time)
So jump outside, pull the telly out the socket
Take a step, take a look
Write a letter, read a book if you read
(It's celebration time, it's celebration time, it's celebration time)

So c'mon, before it leaves us unawares (c'mon)
It could be days or weeks, who cares?
Let's make a memory for the grey

Won't you ride (the wave of fun)
Won't you get up and ride
(And you'll be inside when you're done)
And you will find there's no better time
Ride the wave of fun, fun
Won't you ride (the wave of fun)
Won't you get up and ride
(You'll miss all of the good times when they're gone)
The time is now, the past has gone
Ride the wave of fun, fun
Ride the wave of fun, fun
Ride the wave of fun
Fun
Fun

So c'mon, why don't we get in the car and drive
There's a world out there
And time has seen the whole damn thing released

Won't you ride (the wave of fun)
Won't you get up and ride
(And you'll be inside when you're done)

And you will find there's no better time
Ride the wave of fun, fun
Won't you ride (the wave of fun)
Won't you get up and ride
(You'll miss all of the good times when they're gone)
The time is now, the past has gone
Ride the wave of fun, fun
Ride the wave of fun, fun
Ride the wave of fun
