

Lost in the dark
I feel like a shadow of myself
I'm not what I was
I keep looking for another second chance
To get me... clean

Elevate me
Take me higher
I don't wanna be wasted
I've got nothing left to loose
It's a little known fact
I see everything black
And I don't wanna face it
Elevate me
Take me higher

The smoke and the dark
Has just taken me in
Over my head

No-one to trust
I'm feeling like I'm closely there
I was to the... end

Elevate me
Take me higher
I don't wanna be wasted
I've got nothing left to loose
It's a little known fact
I see everything black
And I don't wanna face it
Elevate me
Take me higher

I'm tired of taking the test
Don't test me
My troubled mind is a mess

You know I'm
I'm only trying my best
To be set free

Elevate me
Take me higher
I don't wanna be wasted
I've got nothing left to loose
It's a little known fact
I see everything black
And I don't wanna face it
Elevate me
Take me higher
