

# Time Machine

The Winery Dogs

Everything in place  
Resting in this hole I dug  
Time keeping pace  
Thinking that its all been done

Day after day I wait there  
Wasting my time

I lift my spirit with the shit I swore I would let go  
I tell myself that I ain't slipping and its under control  
But I'm out of control

Hardened like a stone  
Broken cracked piece of me  
Take me to the one  
Trap me in a time machine

Oh, the time machine I ride  
Oh, take me back relive my life

I'd go behind and change the tide, but where do I come from?  
Oh, the time machine I ride

Oh, the time machine I ride  
Oh, take me back relive my life

I'd go behind and change the tide, but where do I come from?  
Oh, the time machine I ride
