

## Song of Liberty

The Wolfe Tones

Stand beside me for peace and for liberty  
For freedoms denied to many nations.  
With sad emotions ,for borders that run through these  
lands  
In the hope that with justice and peace all will be free.  
Free the earth of weapons of war, of death and  
destruction,  
Should the strong deny the weak when it's justice we seek  
for all.  
With sad emotion for people of these troubled lands  
And the hope that all nations at war will find peace  
For united we stand,  
Linking our hands throughout this world  
Making chains of love that won't be broken.  
We are singing this song,  
Knowing our heart cannot be wrong  
With the love of all struggling people  
For I hate to see children crying  
We must stop all their sorrow and dying.  
Stand beside me for peace and for liberty  
With the hope that all nations at war will find peace  
It's a wish that our lands will find justice with peace  
We will sing you this song,  
Just for you liberty , liberty , liberty
