

Love Make Me Free

The Working Title

Love make me free come put your face on me
get me out of bed my bed take me out to see all i can be
make my head feel soft and free
i could fade away or be taken out to sea on a string

Open doors in me
ruin wars with peace
use your heart don't be in hate choose love
out here in the sea
out here on the brink of all i could be

Love make me free i'm so jaded i can't see
the good inside of all my friends
save the good inside of me from me
don't let me be left standing here on my two feet

With everyone around using their wings without me
