

I Don't Like You

The Wrecks

Tell me, tell me one time
Tell me what you want to say
Cause every single word I've heard a million times
And in a couple hundred different ways

You're out of control
Don't want to see me lose my mind
Cause every time I do, I make a fool out of you
So come on, let me hear it one more time

I don't like you
I don't like you
I don't like you
Not your face or the things that you say
Said I really hate the things that you do
No, I don't like you

Say what you want, say it right to my face
I wanna hear it all, come on please
It's like music to my ears that I've been hearing for years
Come on, why don't you come dance with me?

You're out of control
Don't want to see me lose my mind
Cause every time I do, I make a fool out of you
So come on, let me hear it one more time

I don't like you
I don't like you
I don't like you
Not your face or the things that you say
Said I really hate the things that you do
No, I don't like you

You can't get in my head
I wanna see you try
You can't get in my head
Oh no, not this time
You can't get in my head
I wanna see you try
You can't get in my head
I hope you heard it clearly the first time

I don't like you
I don't like you
I don't like you
Not your face or the things that you say
Said I really hate the things that you do
No, I don't like you
