## **Kissing the Sun**

## The Young Gods

Soon we will be on our way Say goodbye to yesterday

Soon we will be in the light Swimming in the open sky

We'll spread our wings around the stars Watch the way we drop our scars

We will be kissing the sun Everybody knows kissing the sun One and one with the one you've chosen

We'll spread our wings as we get higher Spread our wings into the fire

We will be kissing the sun Everybody knows kissing the sun One and one And the thing explodes
