

Need Somebody

Theophilus London

Feel the force, feel the groove

Closer, wiser, let it go
Drop the anchor, tie the rope
Receive so many faces, receive so many graces
Hit you 3 times in a row
Strike em out like a pro
This town will bring me action
This town will bring the Mecca
These girls are social promise
They'll come and blow ya back out
Leave yo bags by the door
Make sweet lovin' on the floor
Hit the tune, I hit default
If you don't, ?

Oh, girl, you're gonna need somebody
Who can show you the ways to go
Show you all of my lovin', my devotion
Just gimme a hand to hold

I really need to change up (oh my God, what am I gonna wear?)
I can't make my mind up
All I see is dolla signs, they do you like a trophee
The buzz is runnin' out, they want to ball like Coby
Every day it comes and goes
Got the? Typical
Got the conference, got the heart
Had the brains from the start

Oh, girl, you're gonna need somebody
Who can show you the ways to go
Show you all of my lovin', my devotion
Just gimme a hand to hold

Oh, hold my hand, oh, hold my hand
Oh, hold my hand, oh, hold my hand

Oh, girl, you're gonna need somebody
Who can show you the ways to go
Show you all of my lovin', my devotion
Just gimme a hand to hold
