

Our love must die

Therapy?

C G E (4x)
E E C G

My dear young lover, this is just to say I'm gone
Couldn't leave you if I faced your eyes and shaking
Was my loneliness that kept me hanging on
Forgive my emptiness, I've nothing more to say

D C

And this is why our love must die

E E C G

I thought of other girls when you made love to me
You gave yourself too much and I took full advantage
The more I pushed you back the more you clung to me
Don't want to be the one who reminds you of your father

D C

This is why our love must die

E C D
E E C G

My dear young lover, that was just to say I'm gone
I couldn't face your face the morning after shaking
I'll turn up one day when I feel so alone
You just tell me to get my things and go

G D C

And you'll know why our love must die

E C D

Our love must die, our love must die
Our love must die, our love must die
Our love must die, our love must die
Our love must die, our love must die
