

## I Can Hear You

## They Might Be Giants

I can hear you by they might be giants.  
Made at the Edison laboratories.

I can hear you  
Just barely hear you  
I can just barely hear you

This is a warning  
Step away from the car  
This car is protected by viper

Guess where I am  
I'm calling from the plane  
I'll call you when I get there

You won't hear a buzz  
But I'm buzzing you in  
I'm buzzing you in

What's your order?  
I can super-size that  
Please bring your car around

I can hear you  
Just barely hear you  
I can just barely hear you
