

## Signed Up To Die

Thi'sl

They pulled that boy up out the shed, now he walkin' down the road  
Beatin' gettin' more intense every other step he go  
They whipped him punched him kicked him slapped him, ripped that boy up out  
his clothes  
Couple punches to the face, second one broke his nose  
They laughin' at him, they spittin' at him  
They kickin' at him, dog barkin' at him  
He thinkin' to his self, how could this happen?  
He black out for a minute, they throw water at him  
A week ago he was sittin' up playin' with his kids  
Wife and family all around in the comfort of his crib  
Birthday party passing gifts  
Last thing that he remember: packing for a mission trip  
Now it's about to go down  
That's what he was thinkin' as he sit there knelt to the ground  
His killa walked up on him rollin' and looked him in the eye  
He said "aren't you gonna beg?" he said NO ...

I signed up to die  
Death don't have a hold on me  
So death don't put no fear in me  
I don't think that you hearin' me  
I signed up to die  
When I lay down on that bed  
I'm gon' open up my eyes  
And my Lord gon' be there  
I signed up to die  
Death don't have a hold on me  
So death don't put no fear in me  
I don't think that you hearin' me  
I signed up to die ... die ...  
Die ... die ...  
I signed up to die

She was only twelve when she heard about the name of Christ  
Saw the beauty of his love, instantly it changed her life  
Secret meetings in the late night  
Pulled her out the dark, now she 'bout to go and be a light  
She don't know nothin' about no Bible teachers  
'Cause where she from there ain't no Bible teachin'  
Matter of fact it is forbidden  
But she done found a treasure that she couldn't keep hidden  
Now she standin' in a circle  
A hundred people yellin' out "convert or we gon' hurt you"  
I know she had to be scared  
But she thought about that preacher and the words that he said  
He told 'em all about Stephen  
How he was 'bout to die, he looked up and saw Jesus  
And her killer walked up on her, he looked her in the eye  
He said "are you gon' convert?" she said NO ...

He picked his family up and he moved 'em to the inner city  
Not to get a job but to go and be a missionary  
His family told him "boy, you insane  
You gon' get yourself killed, get a bullet to the brain"  
But he still went to do the work  
He still went to plant a church

'Cause God gave him a vision  
And he gon' use that vision to help go rebuild the city  
But now he starin' down the barrel  
They tossin' up his office yellin' and they cursin' at him  
You think that he would be scared  
But he thought about the Bible and the words Jesus said  
And now he prayin' for the killers  
Like even if they kill me Lord bring these boys to repentance  
Then his killer walked up on him, he looked him in the eye  
He said "aren't you even scared?" he said NO ...
