2. He was a Mexican boy with a Mexican smile
And he drank a little tequila
He was a Mexican boy in a Mexican town
And oh how he loved his young senorita

Now and then he'd cross the Rio Grande
And he'd come back a wanted hunted man
And his Mexican girl was his Mexican prize
And that girl was his girl that pretty Mexican girl that died

R: She had Mexican blood (2x)

3. He was a cowboy's boy and a cowboy's son
And on his side he had a gun
He was a cowboy's boy, he was the law
He was out looking for someone

That night he rode into town
The Mexican boy tried to gun him down
That's when his heart broke up inside 'cause lying on the ground
Was his girl that pretty Mexican girl, she died

R: She had Mexican blood
He loved her and she loved him
And when he lost her
Oh how it hurt him
He loved her I seen it the night she died
That's when he lost her
Now his heart is broken
He loved her and she loved him
And when he lost her he lost everything
