Thin Lizzy

She's quite a mediator A smoother operator you will never see S

She knows music I know music too, you see She's got the power T

She's got the pleasure Comes from all the cornerstones of the w

She knows music I know music too, you see She's got the power I
got the power, Rosalie

Rosalie Rosalie Rosalie Rosalie

Down on me, Rosalie Shine on me will you please

From Chattanooga to good old Boogaloosa You can hear her fine S

She knows music I know music too, you see She's got the power S
