2. No other way you clown

Your thoughtfulness has brought us down

And that isn't right

That we should walk alone on the streets at night

Just checking the time

Walking that very fine line

The humour is black

The plan is attack

Now woman is away from me

But we will be strong

R: We will be strong...

3. Down on your luck

The shock it has struck

The weak ones will die

The questions are why? why?

Does anybody hear?

Does anybody understand?

Let me make it clear

Now's the time to take a stand

Now woman is away from me

But we will make it strong

R: We will be strong... (2x)

R: We will be strong, We will, We will be strong, We will be

We will be strong, We will, We will be strong, We, We will,

We, We will be, We, We will, We will be strong, We will be strong
