

## 10 Days Late

Third Eye Blind

Click your heals  
And feel you come for me  
Care free, she's got something big to tell me  
At the ocean  
Talk back at the ocean  
There's no simple way  
To let you know  
Funny how she always cried out daddy  
I got a big surprise, she said  
I'm in trouble now  
and it cannot wait  
She's ten days late  
Boy, your life got complicated  
Well I can't wait  
To see this through  
She's ten days late  
Ten days late  
Low ride bicycles go cruising by  
I laugh  
I don't even know why  
Talk back at the ocean  
Consequence and ozone  
Catch a glow  
Oh no, baby, oh no no  
Give me a minute now  
To figure out my state  
Oh I know  
She's ten days late  
And I don't know  
Where to take it  
But it's still great  
Knowing you  
She's ten days late  
Ten days late  
Time has come for you to choose  
Baby daddies keep your boo  
Many blessings come to you  
Baby daddy keep your boo  
Your eyes look to me for what to do  
I can't lie  
I don't know  
At the ocean  
Talk back at the ocean  
No one's laughing  
Now what do I say  
I walk away but, oh no  
Don't go  
At the ocean  
Talk back at the ocean  
Give me a minute now  
To figure out my state  
She's ten days late  
And I'm never going to fade it  
I guess I'll always be  
Knowing you  
Knowing you  
Knowing you
