

# Burning Man

Third Eye Blind

The rise and fall of my sloppy love, The smatterin's, and splat  
terings  
They'll get ya  
I'm not the one you were thinking of  
Maybe you thought I'd call, Instead of crashing down your hall  
Hold me down, I wanna find out  
You know you will never get what you need

Blue Diamond strike 'em anywhere  
First we caffeinate, then incinerate  
We'll get ya  
And sparks will fly in the summer air  
Did you pull out of your stall  
Maybe I'll see you after all  
Hold me down, I wanna find out  
We say no  
Cause' I live my life like a burnin' man  
Like a burning man  
A burning man  
A burnin', burn  
And I won't get enough until my legs are broken

My rise and fall, shinin' in a void  
Life is not to fear, life is to enjoy  
He'll get ya  
Oh Mr. Death catches all someday  
Baby I thought you'd call  
Or leave a light on in the hall  
Hold me down, But I'll find out  
We say no  
Cause' I live my life like a burnin' man  
Like a burning man  
A burning man  
Like a burning, burn  
Hold me down  
I wanna find out  
We say no  
'Cause I live my life like a burnin', burn  
Like a burning man  
A burning man  
Like a burning, burn  
And I won't get enough  
Until my legs are broken
