

# Can You Take Me

Third Eye Blind

In these days I wonder,  
why we're holding back on bliss  
We blasphemy everything  
we see in a prelude to a kiss

I want the infidels' head on a pike  
Riding on my motorbike

You and me are alike

So can you take me  
Into days I never knew?  
I want to riot  
Let's start a riot,  
me and you  
'Cause a riot's overdue

All I want right now  
Is the time when  
we slept on the floor  
You said right here right now  
Is all I am living for

I got the velocity and all  
I need now is the mass  
I just want you to ask

So can you take me  
Into days I never knew?  
I want to riot  
Let's start a riot, me and you  
'Cause a riot's overdue

Make it bigger and wider  
I'm your mega collider  
Bust you out,  
I have come to bust you out  
I've come

Live in doubt, no longer live in doubt  
No one  
Humbly now,  
I ask for no resistance  
And maybe now,  
oh just maybe now  
We can bridge the distance

So can you take me  
Into days I never knew?  
I want to riot  
Let's start a riot, me and you  
'Cause a riot's overdue

Don't back down,  
don't compromise  
Don't close your eyes  
Here it is do or die

And you still believe the lie  
And the world is for the meek  
Well, this mouse is going to squeak  
Yes, I am dying to be freaked
