

# Everything Is Easy

Third Eye Blind

I drove the coast just to see you  
Why'd you take so long?  
And I get that you know that I miss you  
And I, I know something's wrong

And I'm caught in these days  
At least I hope it's a phase  
And I go and I just play along  
And the boys that she plays  
Those bowlers and the berets  
I know something is wrong  
I know something is wrong

And then you speak to me  
And everything gets easy  
Like I get what I wanted  
Now I'm just haunted by you constantly  
And everything gets easy  
'Til she leaves you alone  
And then you're soaked to the bone

You'll be sore  
Come make it easy some more

Go ahead, take my heart up  
Roll it up like a joint  
Smoke me out 'til the feeling gets cashed  
When you look in my face  
It's like you forget the point

And then you speak to me  
And everything gets easy  
Like I get what I wanted  
Now I'm just haunted by you constantly  
And everything gets easy  
'Til she leaves you alone  
And then you're soaked to the bone  
You'll be sore  
Come make it easy some more

You're gonna be so  
So, so, so  
So, so  
You're gonna be so  
So, so, so  
So, so  
La la la la, be so lonely now  
Da da da da, be so lonely now

If you wanna see me  
You know I'm easily found  
Just climb the stairs where we used to live  
Wrap your fist 'round my heart  
Yeah, you know how to pound, pound, pound

Now I'm just haunted by you constantly  
And everything gets easy

'Til she leaves you alone  
And then you're soaked to the bone  
You'll be sore  
Sore, sore, sore  
Sore, sore  
Come make it easy some more  
Oh, oh, oh
