

# Rites of Passage

Third Eye Blind

Break-ups, blowjobs and black eyes  
Bass mans and goodbyes now  
And you're all freaked out  
Trying to find out what your life's about  
In your soul there's a broken bone  
Come home so far from home  
And you got let down by occupied  
Can't find the ties that bind

I wish I could not been through this phase  
It's like Bowie says  
You pretty young things you go through ch-ch-changes  
Don't take the world they left behind us  
Don't let them find us

Something you can't come back from  
Something's lost and something's won  
What's done is done  
Move on to another one  
It's rites of passage  
It's just rites of passage

I used to think my thoughts were depraved  
Too low to be saved  
All shadows and shade  
So scared for even thinking  
Even diamond talks have their days

It's like Bowie says  
You pretty young things you go through ch-ch-changes  
Don't take the world they left behind us  
Don't don't let them find us (don't let them find us)

Something you can't come back from  
Something's lost and somethings won  
Whats done is done  
Move on to another one

Rites of passage (rites of passage)  
It's just rites of passage (rites of passage)  
Rites of passage (rites of passage)  
It's just rites of passage

Can't stop it coming now you  
I'm still a man, you're gonna die

Something you can't come back from  
Something's lost and somethings won  
This pain's the same now for everyone  
It's rites of passage  
It's just rites of passage  
Rites of passage  
It's rites of passage

(something you can't come back from)  
Break-ups, blowjobs and black eyes  
(something's lost and something's won)

Make the one and save the night  
(what's done is done)  
Move on to another one  
Rites of passage (rites of passage)  
It's rites of passage (rites of passage)  
It's just rites of passage (rites of passage)  
I wish I could not been through this phase

Yea that's the one  
Yea that the one  
Yea that's the one  
Whoa oh whoa oh  
Yea that's the one  
Whoa oh whoa oh  
All believe that all believe in one  
All believe in all believe in one  
Whoa oh whoa in that one  
In that one one one one.....
