

# I Wake Up Cryin'

Third World

By Burt Bacharach and Hal David

(Chorus "A")

Save me save me save me save me  
Baby won't you save me  
From this misery

(Chorus "B")

Save me, won't you, won't you, save me  
Baby won't you save me  
From this misery

I wake up crying  
After tossing and turning  
And yearning the whole night long  
Pretty baby since you went away  
I haven't spent a happy day

I wake up crying after  
Sobbing and sighing and wondering  
Just what went wrong  
Pretty baby I was good to you  
Why you gone and make me blue

I need your love to light up the night  
I need your heart to make things right  
I'm so unhappy on my own  
Don't, don't leave me sad and lonely

(Chorus "A" & "B")

I wake up crying  
After tossing and turning  
And yearning the whole night long  
Pretty baby please come back to me  
Save me from this misery

Oh I need your love to light up the night  
I and I heart to make things alright  
I'm so unhappy on my own  
Don't, don't leave me sad and lonely

(Choruses "A" & "B")
