

I'm Crazy

Thirsty Merc

Don't walk into the fire, little baby
I know your smart, but can you feel the flames
And every man has got a front, little baby
Every man could be the same
It's so easy just to slide, little baby
You let your heart strings get the better deal
But be aware that worlds collide, little baby
And when hearts break
It's real

You say you want me now
But you'll find out somehow
I just want to tell you that I'm crazy
You say you love my world
I tried to warn you girl
I just want to tell you that I'm crazy
I'm crazy

Well I've seen it time and time, little baby
You think you're in control, but just be sure
It may seem to be sublime, little baby
Remember what you're fighting for
You've got to be yourself, little baby
I can't tell you how to play the game
But just back another verse, little sugar
I'll say one word
Flames

You say you want me now
But you'll find out somehow
I just want to tell you that I'm crazy
You say you love my world
I tried to warn you girl
I just want to tell you that I'm crazy
I'm crazy

You say your love is true
That's really sweet of you
I just want to tell you that I'm crazy
You say I'm everything
I teach your bird to sing
I just want to tell you that I'm crazy
Because I'm crazy
Don't want to be with a guy like me
Because I'm crazy
I just want to tell you that I'm crazy
I'm crazy
I'm crazy
