

Mirror To Your Heart

Thirsty Merc

Be yourself around her
That is who you are
Share with her your laughter
Take her in your arms

Everything about her
Perfect from the start
There is not someone else
The way she holds herself
And a mirror to your heart

Draw her close against you
Look her in the eye
Promise her tomorrow
Make no compromise

If she starts to miss you
When you are apart
Tell her you're still there
The way she holds herself
And a mirror to your heart

Kiss her in the morning
Talk about her dreams
Be there in the moment
Simple as it seems

When she smiles sweetly
Like a work of art
You know there's no one else
The way she holds herself
And a mirror to your heart

You know there's no one else
The way she holds herself
And a mirror to your heart
