

Mozambique

Thirsty Merc

I've met people that are like a cup load of sand
They like to slip like cold water through your hands
So sick of the way I just couldn't relate
I started thinking I was lonely in the name of fate
(But that ain't the case)

We're gonna make a little love in the afternoon
And everybody's gonna say giddy up giddy up
Kiss you all subtle by the light of the moon
And take you down to Mozambique
(And my prediction is)

We'll kick it on down to the edge of the floor
And everybody once more giddy up giddy up
Top it on the street by the water and light
And let me reassure you
We're staying on the horse tonight

It ain't over till it's over baby - we've only begun, yeah
I know life is short, so let's have some fun
When the time is going right, we'll up it a gear (oh yes we will)
I'll redefine by whispering this in your ear
(You can hear me loud 'n' clear)

We're gonna make a little love in the afternoon
And everybody's gonna say giddy up giddy up
Kiss you all subtle by the light of the moon
And take you down to Mozambique
(And my prediction is)

We'll kick it on down to the edge of the floor
And everybody once more giddy up giddy up
Top it on the street by the water and light
And let me reassure you
We're staying on the horse tonight

Hah we're gonna make a little love in the afternoon
And everybody's gonna say giddy up giddy up
Kiss you all subtle by the light of the moon
And take you down to Mozambique
(And my prediction is)

We'll kick it on down to the edge of the floor
And everybody once more giddy up giddy up
Top it on the street by the water and light
And let me reassure you
Let me reassure you

We're gonna make a little love in the afternoon
And everybody's gonna say giddy up giddy up
Kiss you all subtle by the light of the moon
And take you down to Mozambique
(And my prediction is)

We'll kick it on down to the edge of the floor
And everybody once more giddy up giddy up
Top it on the street by the water and light

And let me reassure you
We're staying on the horse...
