

# The Good Life

Thirsty Merc

How you doin'?

Some of us spend all our time  
Chasing dreams off dollar signs  
But I got riches of a different kind  
Love is my fortune  
Cause all the bucks don't make much sense  
They don't bring you happiness  
Loves a picture so immense  
It's bigger then I heard

I'm no billionaire no VIP no diamonds on my shoes  
But I'm living living the good life, living living the good life  
I got everything I ever need and as long as I got you  
We'll be living living the good life, living living the good life  
Naa naa naa naa naa naa na naaaa  
We'll be living living the good life, living living the good life

One look at you and all is sweet  
we got the sky and the summer heat  
It's like the sand beneath my feet  
your my kind of gold  
Life's no game to scratch and win  
But I struck it rich when you walked in  
I don't own me yacht but I like to swim  
And I love rock and roll

I'm no billionaire no VIP no diamonds on my shoes  
But I'm living living the good life, living living the good life  
I got everything I ever need and as long as I got you  
We'll be living living the good life, living living the good life  
Naa naa naa naa naa naa na naaaa  
We'll be living living the good life, living living the good life  
Naa naa naa naa naa naa na naaaa  
We'll be living living the good life, living living the good life

Take a rock'n guess and faze me  
Give a way and no one will ever weigh you down  
Just walk the human raise man  
Raise me now  
ayyyy alright

I'm no billionaire no VIP no diamonds on my shoes  
but I'm living living the good life, living living the good life  
I got everything I ever need and as long as I got you  
We'll be living living the good life  
Naa naa naa naa naa naa na naaaa  
Living living the good life, living living the good life  
Naa naa naa naa naa naa na naaaa  
Living living the good life, living living the good life  
Naa naa naa naa naa naa na naaaa  
Living living the good life, living living the good life  
Naa naa naa naa naa naa na naaaa  
Living living the good life, living living the good life
