

Did You Mean It To Be A Fight

This Beautiful Mess

did you mean it to be a fight?
did you mean it to be so painful?
how do you plan to get this right?
seems you've already left the building.

this is not my battle.
i'm not one for fighting.
lay down my armour.
i am waving the white flag.

did you mean us to be an army?
did you mean us to chase the devil out?
where were you when the world was created?
where were you when the animals were named?
why did you let it come to this?
wasn't there any other way?

this is not my battle.
i'm not one for fighting.
lay down my armour.
i am waving the white flag.
the white flag.
waving the white flag.
