

Say Goodnight

This Beautiful Republic

I never thought it'd come so soon
I'd be with you inside this room
Heaven's taking you from me
Your hand grows weak
It's telling me it's time to leave

Help me say goodnight
I won't say goodbye
Leave the light on, I'll be home in time

How can a granite stone symbolize
The kaleidoscope that was your life?
Your words will stay alive in me
My knees grow weak
The tears I leave are healing me

Help me say goodnight
I won't say goodbye
Leave the light on, I'll be home in time
Say goodnight

Help me say goodnight
I won't say goodbye
Leave the light on, I'll be home in time

Well I'll be home in time
Well I'll be home in time

Help me say goodnight
I won't say goodbye
Leave the light on, I'll be home in time

Help me say goodnight
I won't say goodbye
Leave the light on, I'll be home in time

Help me say goodnight
I won't say goodbye
I'll be home
Leave the light on
I'll be home tonight
I'll be home in time
