

# Stay With You Tonight

## This Beautiful Republic

A song is hidden in the wind  
Written for you  
Filter the noise and have a listen  
A moment or two  
You'll find the strength in you  
To fade the scars  
The black and blue  
And stand tall

Go and I will be your guide  
Ohohohohoh  
Know if you fall I'm by your side  
You breathe so you know that it's alright  
Oh!  
You walk with your hand holding to mine  
Ohohohohoh  
Hope will stay with you tonight

Are you buried in the darkness  
The shadow of the doubt?  
Lost track of time indulging yourself  
I'll be your way out  
I'll never let you down  
We'll fade the scars  
Repair the heart and stand tall

Go and I will be your guide  
Ohohohohoh  
Know if you fall I'm by your side  
You breathe so you know that it's alright  
Oh!  
You walk with your hand holding to mine  
Ohohohohoh  
Hope will stay with you tonight

My love, I have got a plan, waiting in the wings  
My child the healing will begin, underneath my wings

Come with me  
Come with me  
I can save you now  
Come with me  
Come with me  
Come with me  
Come with me  
You're all I've got  
Come with me  
Come with me

Ohohoh  
And I will be your guide  
Ohohoh  
Your hand holding to mine

Go and I will be your guide  
Ohohohohoh  
Know if you fall I'm by your side

You breathe so you know that it's alright  
Oh!  
You walk with your hand holding to mine  
Ohohohohoh  
Hope will stay with you tonight
