

The Ones

This Beautiful Republic

We're the ones
And you're looking up at us
Saying be the ones, be the ones
You're the ones
And we're looking up to you
Saying you're the ones

We're the ones
And you're keeping us alive
Saying be the ones, be the ones
You're the ones
Who are holding the front line
You're the ones

Welcome every one
Who came out to the show
Show me that you're ready, you're ready to go
Welcome every one

Welcome every one
Who came out to the show
We're wound up and we're ready
We're ready to go

Welcome every one
Who came out to the show
Show me that you're ready, you're ready to go
Welcome every one
Welcome every one
Show me that you're ready
Show me that you're ready, ready to go
