

## Help Me Lift You Up

**This Mortal Coil**

I don't have to tell you that you're all alone  
Hear what you will, you're not gone  
You'll have to be with your kind  
I'll have to stay with my own kind  
Help me lift you up, help me lift you up

So sorry if I can't stop pretending  
So sorry if I don't let you go  
Like this, but not like this is ending  
I think you know, I think you know  
Help me lift you up, help me lift you up

I have a dream, it's very clear  
You're all around, but never near  
Help me lift you up, help me lift you up
