

Hold My Hand

Thomas Anders

As sure as I am standing here
And asking you to stay
I want you now more than ever
My love won't drift away
No promised land
State of perfection
Just my heart and
My true affection
That's all I've to give
And all you need

Come on baby hold my hand
'Cause there's no letting go this time
Only you can understand
My love, how strong we're tied
Bound together
Come on closer hold my hand
And who know what our hearts will find
Livin' like two lovers can
On love, just hold me tight
Stay forever mine

All night long and though the day
I'm writing just for you
'Cause I have a strong suspicion
That you feel it too
No promised land - Garden of Eden
Heaven knows where this is leading
Better take a chance on me
I'm what you need
