

Standing Alone

Thomas Anders

Let me tell you now, that she's just crazy for me
There is nothing that she would not do for my love
Hey, keep right on dreaming
'Cause she told me i'm the one
That will hold her tonight
Let's get it right, she's my loving baby

You're on your own, standing alone
Out of the game - it's clear to see
You're by yourself, back on the shelf
That's just the way it's got be
Ooh you're just wasting time
History now, that girl is mine
You're on your own, standing alone
Out of the game - she's gonna be mine

I'm the kind of guy that she just goes for, stylish
Take it like a man, she's not for you, wave goodbye
Get yourself ready 'cause your heart is gonna break
I'm the jewel in her crown
Let's get it straight, she's my loving baby
