

# Take the Chance

Thomas Anders

There's a winner in you  
And he makes you feel like a hurricane  
Oh, the dream is so true  
It is possible - you can win the game  
There's a million heroes in this world  
We can make it, let the planet burn

Oh, people take the chance  
Together we can be the champions  
We can be number one  
When we're feeling so strong  
And we keep going on and on and on

Oh, people take the chance  
Together we can built a helping hand  
That's the name of the game  
And you burn like a flame  
When we do it again, again, again

Face to face, eye to eye  
And you know that you want the victory  
Time is on our side  
Deep inside you can feel the energy  
Feel the magic, let this dream survive  
We can make it, we'll stand by your side

Oh, people take the chance  
Together we can be the champions  
We can be number one  
When we're feeling so strong  
And we keep going on and on and on

Oh, people take the chance  
Together we can built a helping hand  
That's the name of the game  
And you burn like a flame  
When we do it again, again, again
