

# Always

Thomas Dybdahl

Don't be alarmed, my friend  
But that's all I've got  
I couldn't keep my fingers off it

Don't be a stranger now  
Are you willing to let it slide?  
At least go easy on me

I never meant to do wrong  
But I'm the kinda guy  
Who always makes his music  
On the run

Always  
I try but I keep taking bad advice  
From everyone always

Thinking back to the days  
When the world was still my friend  
I couldn't see the dangers in it

It took me a while to learn  
That people just ain't no good  
It didn't seem a choice was given

I had to fend for myself  
'Cause no one else was gonna help  
You're on your own again

Always  
I try to trust but it's hard  
When you keep getting let down always

Always  
I try but I keep taking bad advice  
From everyone always  
Always, always, always
