

Hypoxia

Thomas Giles

You've heard it once before
It's only up from here
Doubt way down with force
We do all that we can
Yes we do

That's all you need

Keep movin', keep swimmin', keep breathin'

I know you think judgement's made
There's no looking down here
Ignore the weight of the wall
'Cuz it's only up from here

You'll go to the place you ride
And love like you've always loved
Yes you have

That's all you need

Keep movin', keep swimmin', keep breathin' (oooh)
Keep movin', keep swimmin', keep breathin' (oooh)
Keep movin', keep swimmin', keep breathin' (oooh)
Keep movin', keep swimmin', keep breathin'
