

Walking With You

Thomas Godoj

Down
Down by the sea
Where we once started
That's where I'll be

Spring
Beauty and fall
Old man winter is not
Gonna move me at all

I still hear you breathing
With your lips on my ear
As summer is leaving

Now I'm walking on water
Walking with you
Now I'm walking on water
Walking with you

They
Carved it in stone
Now a good man
Is on his way home

But you go

And tell everyone
That I'm still singing your songs

Now I still see you walking
Down where we once left
I'll wait here for ever

Now I'm walking on water
Walking with you
Now I'm walking on water
Walking with you

Someday we'll be walking
Together again
That's when you tell me

Now I'm walking on water
Walking with you
Now I'm walking on water
Walking with you
