

Where Did Your Love Go Wrong

Thomas Godoj

As a shade of day is kissin' the horizon
And the city lights all fade away
Somewhere someone opens up their eyes and
You and me will sleep all day
Where did I find your soul?
How long before we go our ways
Poeples are flying by into the neon night

So get in the light where I can see you
Tell me you like how much I need you
Where did your love go wrong?

One of these days I'll find a lover
Everyone's got holes to cover
Tell me
Where did your love go wrong?
Did it go wrong?

As a ray of sun sets everything in motion
And the heartbeat of the street awakes
Somewhere in this town wrapped in devotion
Why did I feel so cold?
How did you make it go away

Into the neon night?

So get in the light where I can see you
Tell me you like how much I need you
Where did your love go wrong?

One of these days I'll find a lover
Everyone's got holes to cover
Tell me
Where did your love go wrong?
Did it go wrong?
Are we still lonely?
But I'll try my best to keep it inside
So let's pretend we're all right
Where did your love go wrong?

So get in the light where I can see you
Tell me you like how much I need you
Where did your love go wrong?
One of these days I'll find a lover
Everyone's got holes to cover
Tell me
Where did your love
Where did your love
Where did your love go wrong?
