

Deal

Thomston

Baby you're shrouded
Yeah, I hold you tighter than anyone ever did
Why you indifferent?
'Cuz you give me a little bit take it all back with you
Then you run off with it
I should just call it quits
I got enough on my plate without all this shit
You can do what you want when you want
Just be click-up with it

I can't trust your word
'Cuz all your lines blur
Make your mind up
Before our time's up

What's the deal, baby?
What's the deal, baby?
Yeah, you love me like the sun
Then you set on me
What's the deal, baby?
Set it straight with me
What's the deal, baby?
What's the deal, baby?

You call me up for them favors
Remember that I don't do favors
You gotta be there for me later
You like to get stuck on that label, baby
Getting dizzy on the drive
Couldn't read the messages on my phone
I couldn't read you at all
No, so

What's the deal, baby?
What's the deal, baby?
If you're gonna play with my heart
Then you better play it for keeps
Make your mind up
Before our time's up

What's the deal, baby?
What's the deal, baby?
Yeah, you love me like the sun
Then you set on me
What's the deal, baby?
Set it straight with me
What's the deal, baby?
What's the deal, baby?

See, I gotta face it
'Cuz you burned the edges let me taste it
Yeah, I'm not looking for replacements
But I'll do what I gotta do
And I'll give what I wanna get
'Cuz they only ever give love
And all you offered was regret
So I hang my head back up again

Where you coming at
