Those Who Fear

No man left behind
Who have you forgotten
Who have you forsaken
Who have you left behind to die
Who have you forgotten
The names and faces of those you've left to die
This is an image burned inside my mind
This is a nightmare I cannot awake
This is a nightmare I won't let you forget
Hear them in my dreams
Their voices calling
Haunted by their screams
Their shadows crawling
Nowhere left to run
More than a memory
No man left behind
Who have you forgotten
Who have you forsaken
Who have you left behind to die
Who have you forgotten
The names and faces of those you've left to die
This is an image burned inside my mind
This is a nightmare I cannot awake
This is a nightmare I won't let you forget
You won't forget
Hear them in my dreams
Their voices calling
Haunted by their screams
Their shadows crawling
Nowhere left to run
More than a memory
No man left behind
