

The Pain I Feel

Those Who Fear

The pain I felt was all too real
When will we learn from our mistakes
How much time must we spend at the bottom of this pit
From which we cannot escape
When will we learn from our mistakes
How will I escape this prison
In which I find myself trapped once again
Oh, God
Free me from myself
I am my own worst enemy
Help me free me from myself
Tortured by what is inside of me
Help me free me from myself
I have built my own prison
Help me tear down these walls that keep me here
The pain I felt was all too real
Help me free me from myself
I am my own worst enemy
Help me free me from myself
Tortured by what is inside of me
Help me free me from myself
I have built my own prison
Help me escape my own prison
The pain I felt was all too real
