

# So Far Gone

Thousand Foot Krutch

I know they say that the space between  
Can make it stronger than we've ever seen  
They might be right but I disagree  
Cause I've never felt stronger than when you're with me

Sometimes I wonder why you even care  
Cause even when I leave you're always there with me  
And like a candle makes a brighter place  
This mark you've made on me can't be erased.

I wanna be so far gone in you  
So far nothing else will ever do  
I wanna be so far gone in you  
In you..

I've stood alone and I've fallen down  
Your hands were there to pick me off the ground  
Sometimes I cry cause I can't believe  
Your love is big enough to cover me

Sometimes I've wondered if you're even there  
But when I feel far away you meet me there  
And like a candle makes a brighter place  
This mark you've made on me can't be erased  
Yeah..

I wanna be so far gone in you  
So far nothing else will ever do  
I wanna be so far gone in you  
In you..

I wanna be so far gone in you  
So far nothing else will ever do  
I wanna be so far gone in you  
In you..I wanna be lost

I wanna be lost in you  
Like a ship in the night  
I wanna get lost in you  
Underneath your sky

I wanna be lost in you  
Like a ship in the night  
So far gone tonight

I wanna be so far gone in you  
So far nothing else will ever do  
I wanna be so far gone in you  
In you...

So far gone in you  
In you  
In you  
So far gone in you
