

Dance the Night Away

Three Dog Night

Babe you know I hate to see you cryin'
The last thing on my mind is to make you blue
And goodness knows I'm just not into lyin'
So baby, can't believe I'm into you
So dry your eyes
Sit down by the fire
Let the flames of music get you high

Oh we might as well
Dance the night away, dance the night away
Dance the night away, dance the night away
Dance the night away, dance the night away
Dance the night away
Dance, dance, dance the night away

So let me say I'm sorry, baby
For being so unkind
Talkin' 'bout you, let me leave my trance
You know that I love you girl
Any fool can tell that at glance
You get the music
Oh, we've got a chance, yeah

Oh we might as well
Dance the night away, dance the night away
Dance the night away, dance the night away
Dance the night away, dance the night away
Dance the night away

Dance the night away, dance the night away
Dance the night away, dance the night away
Dance the night away, dance the night away
Dance the night away
[repeat]
