

Something came over me

Throbbing Gristle

Something came over me
Something came over me
And I don't know what it was
No I don't know what it was
Was it white and sticky?
Was it white and sticky?
Well I don't know what it was
No I don't know what it was

Something came over me
Something came over me
And I don't know what it was
No I don't know what it was
But I rather like it
Yes I rather like it
So I'm doing it again
Yes I'm doing it again

Something came over me
Something came over me
And I don't know what it was
No I don't know what it was
Was it white and sticky?
Was it white and sticky?
Well I don't know what it was
No I don't know what it was
But I rather like it
Yes I rather like it
So I'm doing it again
Yes I'm doing it again

Something came over me
Something came over me
Was it white and sticky?
Was it white and sticky?

Something came over me
Something came over me
And I don't know what it was
No I don't know what it was
Was it white and sticky?
Was it white and sticky?
And I don't know what it was
No I don't, don't, don't, don't, don't know what it was
Mummy didn't like it
And my daddy didn't like it
But I do it anyway
Yes I do, do, do, do, do it anyway
Do it anyway
Do it anyway
Do it anyway
Yes I do, do, do, do, do it anyway
Something came over me
And if something comes over you
Well do it anyway
Yes do, do, do, do, do it anyway
Do it anyway

Do it anyway
Do it anyway
And that's the message for today
And if it's white and sticky
And if it's white and sticky
Well do it all again
Keep doing, doing, doing, doing, doing it again
Doing it again
Doing it again
Do it all again
And that's the message, the message, the message from Gen

Something came over me
And if something goes over you
Do it anyway
Just do, do, do, do, do it anyway
Do it anyway
Do it anyway
Do it anyway
Just do, do, do, do, do it anyway
