

# Nightmare

## Throw The Fight

Never wanna let go  
Never wanna forget

Opening up to you

Telling nothing but the truth

My mind explodes  
Flooded with heavy emotions  
Covered with your dying love and  
Deep dark devotion

Sleep with my eyes wide open

And I'm scared of falling in love

Hoping for a miracle to come

Rise above  
Sleep with my eyes wide open

Until my body goes numb  
Waiting for a miracle to come

Rise above  
Rise above

I'm trying to prove to you

And to myself  
There is nothing that can stop me

It's who I am  
Shut out the doubters  
Was all we ever could do  
Filled with hate and despair  
Watch the evil take you

Sleep with my eyes wide open

And I'm scared of falling in love  
Hoping for a miracle to come

Rise above

Sleep with my eyes wide open

Until my body goes numb  
Waiting for a miracle to come

Rise above

Rise above

Nightmare  
My body is going numb

Nightmare  
My lips start to tingle

Nightmare  
My face starts to melt  
Wake me up  
Wake me up

From this hell  
From this hell

Sleep with my eyes wide open

And I'm scared of falling in love

Hoping for a miracle to come  
Rise above  
Sleep with my eyes wide open  
Until my body goes numb

Waiting for a miracle to come  
Rise above  
Rise above
